

Online PARCC Resources and Practice for Math and ELA Grades 3-11

<https://parcc.pearson.com/practice-tests/>

A practice test for Math and ELA for each grade is available on the link above for you to use to familiarize yourself with the kinds of items and format used for the tests.

<https://parcc.pearson.com/tutorial/>

The purpose of these tutorials is to demonstrate the navigation and tools available for Computer-Based Assessments and the use of the Test Booklet and Answer Documents for Paper-Based Assessments. The items appearing in these tutorials are samples used to allow students and educators to gain familiarity with the technology platform and paper-based format that will be used for PARCC assessments.

Released Items & Materials

The states that make up the PARCC consortium have taken the exceptional step of releasing test items from current and recent year's PARCC assessment to give teachers a powerful tool to inform and improve classroom teaching and learning. The test items were built with robust mathematics problems and authentic reading passages selected and reviewed extensively by dozens of educators from PARCC states.

The released materials includes scoring rubrics and guides to the scoring, as well as released item sets, answer keys, standards alignment, and sample student responses – scored and annotated. A significant number of these test questions and supporting instructional resources are now available here on the Partner Resource Center.
